

Essays in Socialism, New and Old (Classic Reprint)

Excerpt from Essays in Socialism, New and Old

The tone of public opinion and the principle on which the law is administered have not sensibly changed in the matter in question during the last decade. The suggestions contained in the essay on Early Christianity and Modern Socialism may be supplemented to-day by a perusal of some works of recent scholarship that have since appeared, such as Professor Dills Roman Society from Nero to Marcus Aurelius and M. Gaston Boissiers La Religion Romaine. For the rest the author ventures to think the suggestions in question will not have lost any of their point for those who are interested in following up the analogies indicated as obtaining between the modern movement and that of the first centuries of the Christian era. Concerning the Natural History of the Nonconformist Conscience, it may be pointed out that the history of English public opinion during the Boer War has since afforded a sinister commentary on the outline sketch given ten years back of the origin and history of that notorious ethical product.
