

## Modern Political Institutions (Classic Reprint)

Excerpt from Modern Political Institutions. Modern history, as that term is commonly used, may be said to date from the first publication of printed books. Modern politics can hardly be said to have begun to shape themselves until after the Protestant Reformation, nor to have assumed anything like definite and settled form before the middle of the eighteenth century. Modern political institutions are of still later growth. Political history is the tree from which they branch. Many a shoot is put forth in the spring-time of a nation, to wither and perish. The work of natural selection is nowhere so unremitting and remorseless as in the development of processes of government. The Puritans and the Commonwealth brought no lack of new political theories before the people of England and of New England. Many were tried, but few chosen. The French philosophers of the eighteenth century did as much for their countrymen, and the revolution, which they brought on, winnowed their work, and scattered most of it to the winds.
