

Race and Family: A Structural Approach

In *Race and Family: A Structural Approach*, author Roberta L. Coles looks at ethnic minority families in a novel way? through a structural lens. Unlike many texts on race and family, this book offers an approach that illustrates overarching structural factors affecting all families as opposed to examining each ethnicity in isolation from one another. By focusing on various structural factors such as demographic, economic, and historical aspects, this book analyzes various family trends in a cross-cutting manner to exemplify the similarities and distinctions among all racial and ethnic groups.
