

The Problem of Foreign Policy: A Consideration of Present Dangers and the Best Methods for Meeting Them (Classic Reprint)

Excerpt from The Problem of Foreign Policy: A Consideration of Present Dangers and the Best Methods for Meeting Them

But I am conscious of a certain change of emphasis in my feeling. Before the war I was eager for large and sweeping reforms, I was intolerant of Conservatism and I laughed at risks. The social order had then such a margin of strength that risks could safely be taken. Now I feel a need above all things of the qualities that will preserve civilization. For that preservation, of course, Liberality in the full sense is necessary, and constant progress and a great development of democracy. But what is needed most is a return to a standard of public conduct which was practised, or at least recognized, by the best Governments of the world before the war, and which now seems to have been shaken, if not shattered. I am not demanding in any wild idealist spirit that Government should act according to the Sermon of the Mount - though they well might study it a good deal more than they do. About the Publisher
